Dear Sirs,

We have great satisfaction in informing you, a new Nikkei organization starts its activities.

We are a group of young professionals of Japanese ascendant who, under the same philosophy, have created Pro Japan Foundation.

Our basic objective is that our NPO continues the work of diffusion and promotion of Japanese culture from a young, dynamic and modern point of view. We strongly wish to contribute to the work of the different Japanese and Nikkei organizations that have been carrying it since a long time ago.

We have lots of dreams which we will try to fulfill. We will concentrate there our potential through activities which reflect the creative spirit and vanguardism of present Japan.

We are about to start our first steps and we hope to count with your support.

You are warmly invited to know us.

Masami Shiira  
President Pro Japan Foundation
